Part Number	List Price	Projection	Width	Length	Texture (Front/Back)
85063	\$64.00	1/2"	5"	18'	Smooth/Smooth

Did you know . . .

PVC and Urethane can be used together in your millwork projects. They have very similar working properties and complement each other beautifully. This allows you to use the right product for the right application, making installation easier and allowing you to stretch your design creativity to the max!

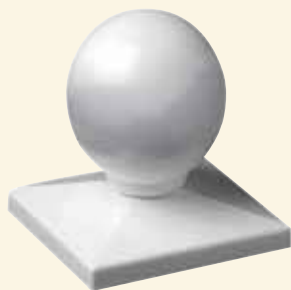

If painting Fypon PVC (which is not required), we recommend use of an acrylic latex paint with Light Reflective Value (LRV) of 55% or greater.
